Order your copy today!

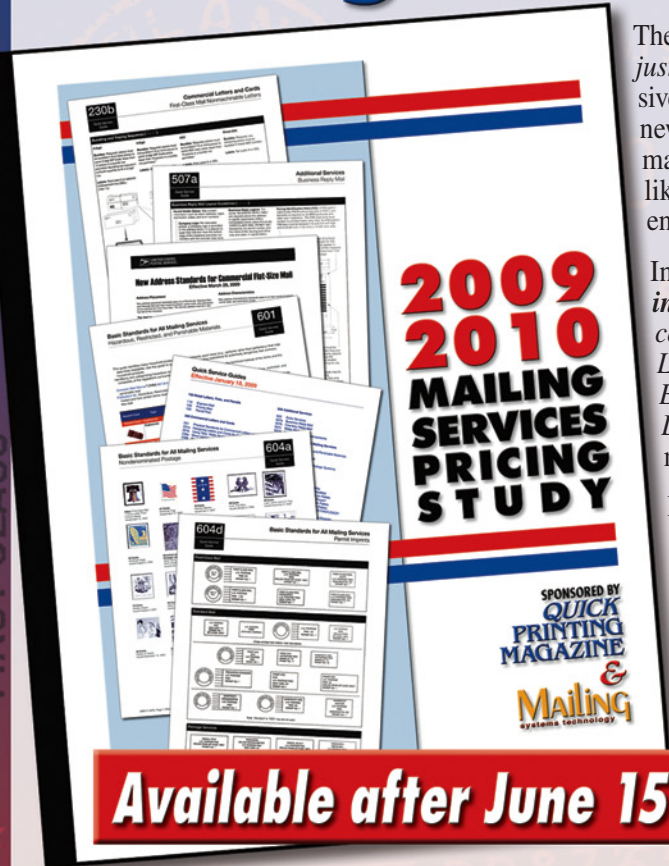

The *2009/2010 Mailing Services Pricing Study* has just been released! This is the most comprehensive report of its kind in the mailing industry. This new report brings you up-to-date pricing information on what mailing and printing firms just like your own are charging for dozens and dozens of services offered.

Inside this 50+ page report, you'll find *detailed pricing info* on more than 34 distinct services offered, ranging from *NCOA certification, De-duping, Mail Matching Services, Inkjet Addressing for Letter size and Flats, Hand-Affixing of Stamps, Automated and Manual Envelope Insertion Charges for both Small and Large envelopes, Hand-Labeling, Tabbing Charges (both 1 & 2 tabs), Sorting & Bundling*, plus many others.

Most important of all, we provide you with *average, median* and "*majority high-low*" price per thousand broken down for the following quantity brackets: 1M, 5M, 10M, 25M and 50M. Plus, for the first time ever, this study will include interpolated quantity tables as well as "*price per piece.*"

The newly released Study also includes numerous additional features such as our popular "*Market Basket*" comparisons that analyze pricing practices based upon geographic location, population density, annual sales and productivity. Also included in the **2009-10 Mailing Services Pricing Study** is the latest information on invoicing practices, payment methods and charges for deliveries made to both local postal facilities as well as to BMC and DSCF facilities.
